Pub Date :2009-05-01 Publisher: the Chinese Children DIVclass = right_content digital and graphics are the foundations of mathematics. Can only do children learn digital and understanding graphics knowledge will recognize is not enough. the need to understand the significance of these figures and graphics. This is a multicultural learning experience. For children. the best method of teaching is the teaching content into the game. so that children will play in the process to achieve the purpose of learning. Book children loved the combination of Ventura Deep and explain the significance of the concept and graphics. the story. in the form of cartoons to attract and guide their children voluntarily complete digital Miaohong recognize graphics. graphics small portfolio and unit small tests and other exercises. Do not use big into the vision to look at these games. and that this knowledge is very simple. not to think the casual talk of the little guy. the children can remember on the line. Numerical and graphical both the external manifestations. has intrinsic meaning. Children new to this part of knowledge. often seem to understand the one to answer questions on the incomprehensible phenomenon. Sometimes. children can complete the difficult subject of sudden surprise to us; Sometimes. in the face of a very simple question but unable to do anything. but to no avail. In this regard. the parents do not worry. and more without wondering how clever baby a while to understand that while confused. It should be said. the children repeatedly is a normal phenomenon in the learning process. The little guy needs time to reach understanding. memory. understanding and digest new knowledge before it can reach with ease. This is tantamount...
